3 December 1963

DD/S&T 2261-63

Dr. Wheelon,

You returned to me the attached paper addressed to you from AD/SI, dated 3 October 1963, and asked that I inquire into its genesis, the nature of the "debate," and the action expected of us.

Attached also is a memorandum of 25 July to the Acting Assistant Director/SI from you, signed as DD/R, which appears to put the matter in complete context.

Chamberlain in his memorandum of 3 October in the last paragraph requests your advice in how to properly size the problem. He is ready to proceed, as you suggested, on the more narrow issue. However, if it is a larger program level discussion, then he seeks advice as to whether ☐ should undertake a survey.

25X1

Signed: John F. Blake

John F. Blake
